

Current and future research and development activities

1. Background to exercise and contact details for future reference

Dear Delegate

Thank you for your interest in providing some feedback by way of preparation for and during the follow-on workshop to the session 'Small funded projects in pedagogical research and CAL development work' on Friday 11 April at the Annual Meeting for Teachers of Medical Statistics 2008.

The preparatory work is not obligatory, as it is fully recognized that delegates will have varied experiences and interests. You will have the opportunity to add further details during the conference and in particular during the above workshop.

It is anticipated that feedback from the workshop will facilitate the creation of a list of relevant contacts and topics of interest for use in future communications between delegates who are keen to put their workshop proposals into practise.

At the end of the meeting, you will be encouraged to keep you own copy of this form for your own reference and to forward a copy to me to assist in enhancing possibilities for future collaboration and in collating the ideas shared at the workshop.

To this end, my contact details are provided below for your reference.

Thank you in advance for your valued input to the conference.

Warm regards

Margaret MacDougall

Current and future research and development activities

3. Looking to the future

3. Would you or your colleagues within your department be interested in becoming involved in any projects to pilot or investigate the use of CAL materials in the teaching of statistics within your own institutional setting?

No

Don't know

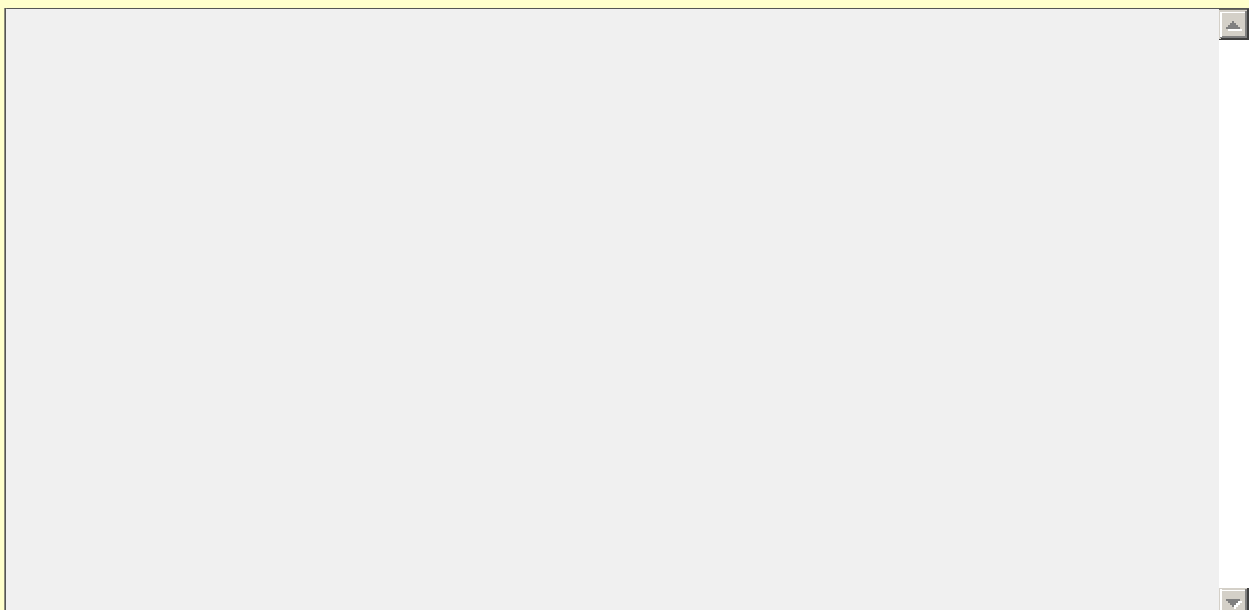

Yes (please provide details)

A large, empty text input area with a light gray background and a thin black border. It has a vertical scrollbar on the right side, indicating it is a scrollable text field.

4. Do you have ideas for future research or development work in teaching and learning which you would like to share with delegates? (Please feel free to be as original as you like.)

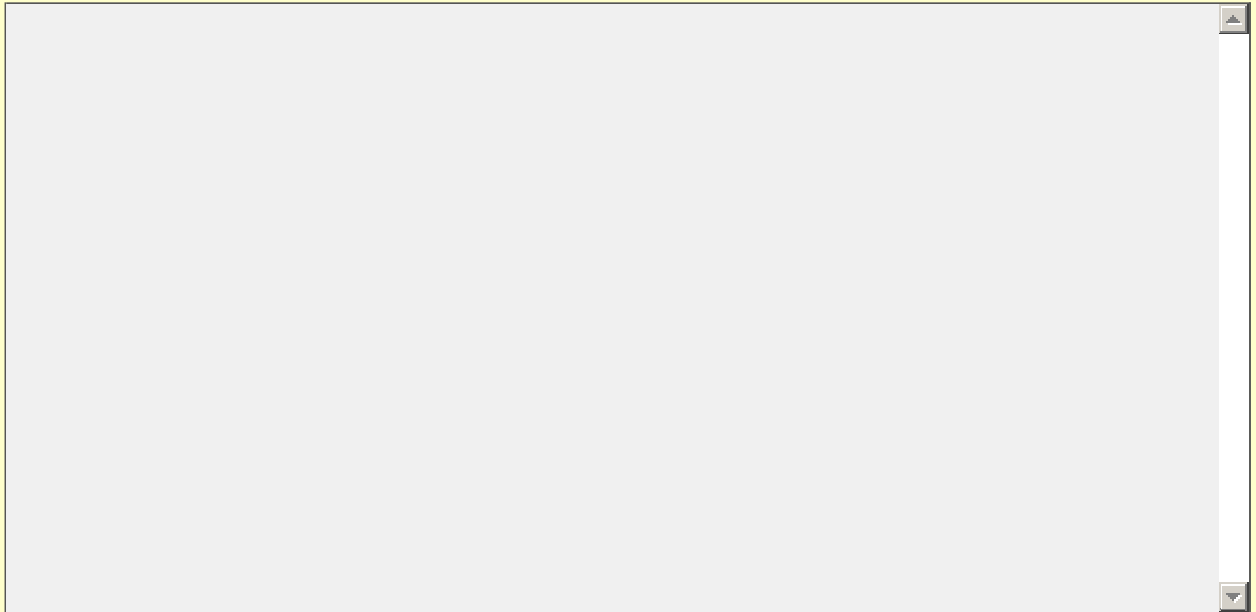

No

Yes (please specify)

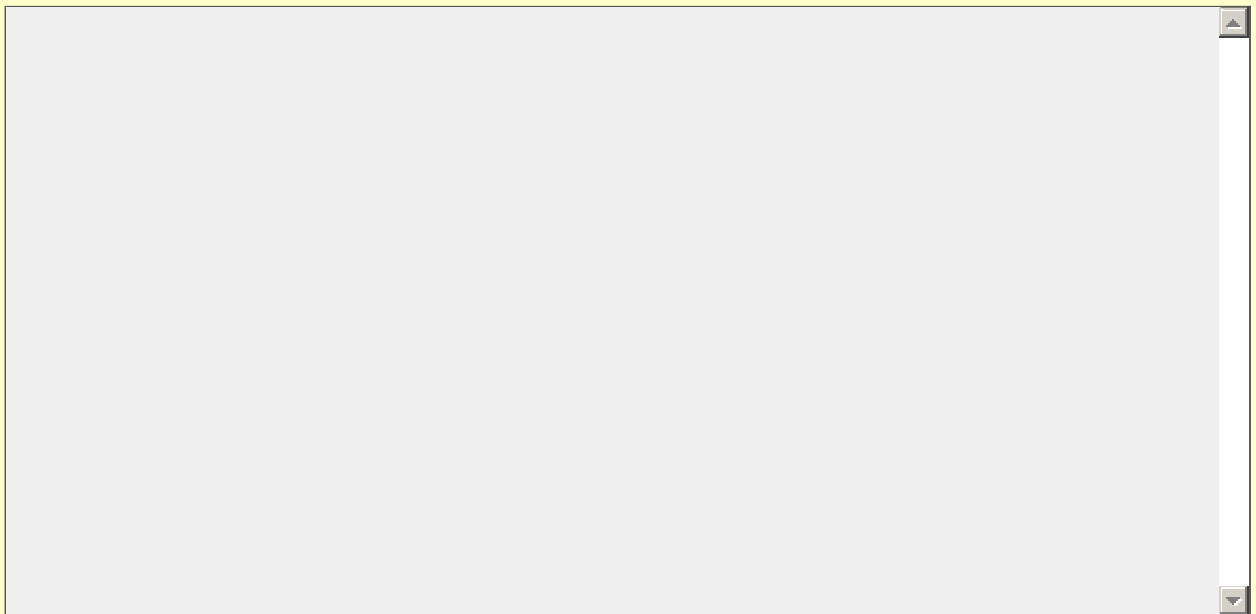

A large, empty text input area with a light gray background and a thin black border. It has a vertical scrollbar on the right side, indicating it is a scrollable text field.

Current and future research and development activities

5. You can use this area to jot down ideas based on the contributions of the other members of your group. Please be kind and list the names of the contributors. You may wish to refer back to this information in the future!

6. Regardless of your responses above, please feel free to use the space below to provide your own recommendations on development work and research work aimed at improving teaching and learning of statistics.

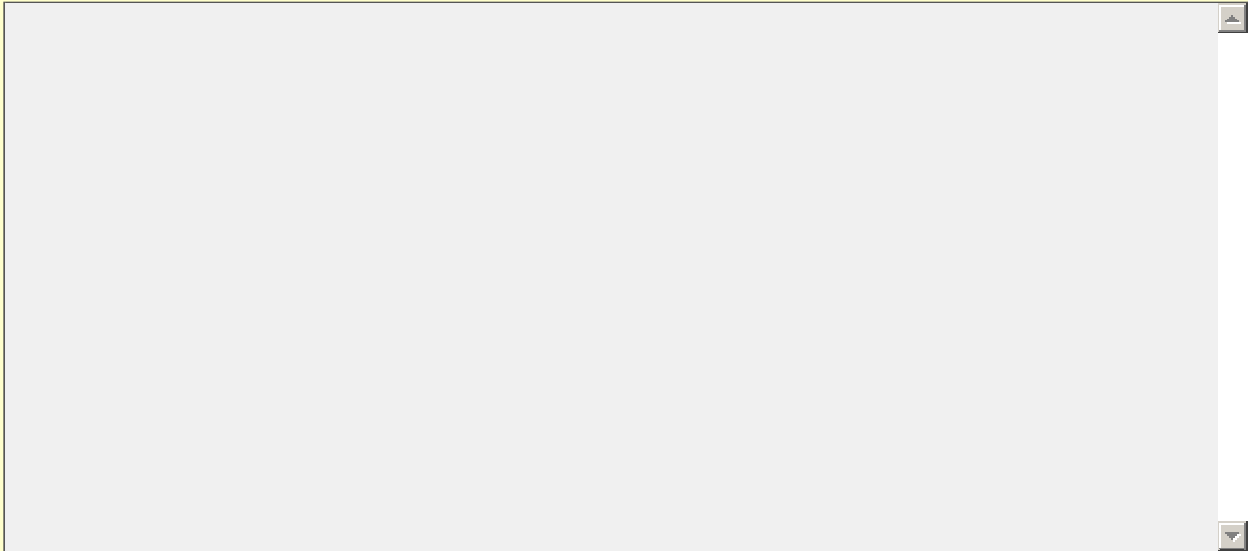

Current and future research and development activities

7. Would you be interested in engaging in collaborative work with other delegates at this conference?

No

Don't know yet

Yes - please provide as much detail as possible
