The Melting Pot, 5 Rose Street, Edinburgh EH2 2PR

Non-members welcome

How deprived is your neighbourhood? (or: is Glasgow worse than Edinburgh?)

Niamh Laffan and Matt Perkins
Scottish Government

How deprived is your neighbourhood? Where is the most deprived place in Scotland? Is Glasgow worse than Edinburgh? These are just some of the questions that can be answered with the Scottish Index of Multiple Deprivation. The 2009 index will be published on 29th October and in this talk two of the statisticians working on the project will explain the results of the index and the methodology and data sources behind it including the statistical techniques used.
